

Please Help Protect Suffering Patients From Arrest

I'm Joel Peacock, a 56-year-old construction project manager and member of the New York State Conservative Party. I'm also a patient suffering from chronic, severe pain due to a 2001 car accident, who every month uses thousands of dollars of prescription pain medicines that offer me little relief. Please give me and thousands of other suffering New Yorkers the legal option of the relief that medical marijuana can offer us ...

Please call Sen. Dean Skelos at 516-766-8383. Ask him to support allowing the very ill and dying to use and grow medical marijuana with their doctors' recommendations.

WHO SUPPORTS ALLOWING THE VERY ILL TO USE AND GROW MEDICAL MARIJUANA?

76% of New Yorkers statewide

55% of the Conservative Party members in New York state

Organizations representing the state's nurses, doctors, and medical schools

**Please call Sen. Skelos at 516-766-8383
to ask him to stand up for seriously ill patients.**

For more information, including full results of the referenced polls, contact New Yorkers for Compassionate Care at 516-345-0294 or Karen@NYCompassionateCare.org. Please also contact us if you have a personal connection to the issue and would like to get involved.
