Promote your business and help end cannabis prohibition.

The Marijuana Policy Project is the leading organization working to dismantle cannabis prohibition in the United States. Our proven results-driven approach positioned MPP to coordinate the victorious campaigns in 10 of the 15 states that now have adult-use legalization laws, and we've backed 13 successful medical cannabis bills in the last 16 years. No organization in the U.S. has changed as many cannabis laws as MPP.

MPP is proud of our indispensable role in helping to establish an environment where legal cannabis can thrive, and none of this would be possible without the dedication of our [Corporate Support Network companies](#). We offer participating businesses multiple giving options to fit your needs, and joining the Support Network is a great way to promote your brand while helping to end cannabis prohibition nationwide. Join us today!
