

Pennsylvania Cannabis Policy Voter Guide: May 19, 2026, State Primary Election

This year, every seat in the Pennsylvania House of Representatives and half of its state Senate seats are on the ballot. To help inform voters about their candidates' stances on cannabis legalization and other reforms, MPP has created this voting guide, which includes information from incumbents' records, public comments, and replies to our one-question candidate survey. We asked candidates:

Twenty-four states — including five of Pennsylvania's six border states — have legalized cannabis for adults 21 and older. Do you support making it legal for adults 21 and older to use, possess, and purchase cannabis in Pennsylvania, while imposing health and safety regulations and taxes on sales?

You can look up your Pennsylvania state Senate and House district — along with everything else that will be on your ballot — [here](#). Pennsylvania allows on-demand mail voting, which you can learn about [here](#). Or find your polling place to vote on Election Day — Tuesday, May 19 — [here](#). Note that we only included races where two or more candidates will be on the primary ballot. We'll be including all districts in our General Election voter guide.

24	La'Tasha	Mayes (i)	Democrat	https://www.latashaforpa.com/		Voted in favor of HB 1200, the bill to legalize cannabis for adults via state-run stores. (May 2025)
28	Robert	Bertha	Democrat	https://www.berthaforpa.com/	Yes	Offered this comment in response to our candidate survey, "I support a practical, balanced approach to cannabis; legal, regulated, and focused on public safety. That means keeping it away from minors, enforcing impaired-driving laws, and supporting law enforcement. "Done right, it can also generate tax revenue to fund public schools, infrastructure, and community programs here at home. This is about responsible regulation that keeps people safe and benefits our communities."

39	Kellianne	Frketic	Democrat	https://ka4pa.com/	Yes	<p>Offered this comment in response to our candidate survey, "this is something that is incredibly important to me. I have worked closely with Pittsburgh Norml and cannabis coalitions across the state. I have also traveled to Harrisburg numerous times to lobby. This is something my opponent can't say. He might say he supports cannabis, but that's lip service. Period. I don't just talk to talk. I walk the walk and I'm not afraid to speak up and speak out on the steps of the capital or in Washington DC.</p> <p>If Pennsylvania legalizes adult-use cannabis but hands it over to a handful of corporations or a state-run monopoly, we will have missed the point. Legalization has to be about justice, opportunity, and getting it right—not just getting it done.</p> <p>Here's how I would fight for a fair, people-centered cannabis policy in Pennsylvania:</p> <p>-No State Store Model — Build a Small Business Economy I do not support a state store model. We've seen how that limits opportunity and concentrates power. Instead, we need a competitive, well-regulated market that prioritizes local entrepreneurs, small businesses, and independent operators—not a system dominated by a few large players.</p> <p>-Automatic Expungement & Justice First Legalization must start with justice. That means:</p> <ul style="list-style-type: none"> * Automatic expungement of past non-violent cannabis convictions * Resentencing and release where appropriate * Reinvesting in communities that were disproportionately harmed by criminalization <p>We cannot move forward without addressing the harm that was done.</p> <p>-Equity Licensing — First in Line Means First in Opportunity The people and communities most impacted by the War on Drugs should not be last to benefit—they should be first in line. I support:</p> <ul style="list-style-type: none"> * Priority licensing for impacted individuals and communities * Set-asides for minority-, women-, and locally-owned businesses * Caps on how many licenses large corporations can hold <p>-Breaking Down Barriers to Entry Too often, the biggest barrier is simply getting started. I would push for:</p> <ul style="list-style-type: none"> * Low-cost application fees * State-supported grants, loans, and technical assistance * Partnerships with community organizations for training and mentorship <p>If we're serious about equity, we have to invest in it.</p> <p>-Strong Protections Against Corporate Takeover We cannot allow "Big Marijuana" to dominate Pennsylvania the way we've seen in other states. That means:</p> <ul style="list-style-type: none"> * Limits on vertical integration * Anti-monopoly protections * Transparency in ownership <p>This market should work for Pennsylvanians—not just wealthy investors.</p> <p>-Community Reinvestment That Actually Reaches People Revenue from cannabis should go back into the communities that paid the highest price for prohibition—funding things like:</p> <ul style="list-style-type: none"> * Public schools * Workforce development * Mental health and substance use services * Violence prevention and community programs <p>-Public Health & Safety Done Right Legalization must come with clear, responsible regulations—protecting consumers, preventing youth access, and ensuring safe products—without recreating the harms of over-policing.</p> <p>□</p> <p>This is about more than legalization—it's about getting justice right, building opportunity, and making sure no one is left behind.</p> <p>We have a chance to do this the right way in Pennsylvania. I'm ready to fight for it."</p>

District	First Name	Last Name	Party	Website	Survey Response	Notes
106	Ryan	Hazel	Democrat		Yes	Offered this comment in response to our candidate survey, "I am a strong supporter of cannabis legalization and have been an advocate since I was young. As a medical cannabis patient in Pennsylvania, I've experienced firsthand the benefits it can provide—helping manage chronic pain and improving quality of life. I believe adults should have the right to responsibly use cannabis, and that all use has the potential to be beneficial, whether for medical or personal well-being. Pennsylvania is falling behind as surrounding states move forward with legalization, costing us significant tax revenue and economic opportunity. I support a responsible legalization framework that includes consumer safety, fair taxation, and equity—especially ensuring that communities disproportionately impacted by past cannabis laws have opportunities to participate in and benefit from the industry."
106	Anju	Singh	Democrat	https://anjusingh1517.wixsite.com/my-site-1	Yes	Offered this comment in response to our candidate survey, "I support the responsible legalization of cannabis as it will bring in much needed revenue to PA while also providing the support needed."

117	Bill	Jones	Republican	https://billjonesforpa.com/	No	Added this comment in response to our candidate survey, "Pennsylvania needs to continue to evaluate the experiences of other states over a longer period of time. Legalizing cannabis could increase youth access and normalize drug use, leading to more addiction and long-term public health and social problems. Additionally, it may compromise workplace safety and productivity, while straining law enforcement and healthcare systems."
117	Jamie	Walsh (i)	Republican	repwalsh.com		Voted against HB 1200, the bill to legalize cannabis for adults via state-run stores. (May 2025)
120	Fern	Leard	Democrat	https://votefern4pa.com/	Yes	Offered this comment in response to our candidate survey, "I have been a long-time supporter of legalizing marijuana for recreational use. For years, I've believed that prohibition has done more harm than good, fueling unnecessary criminalization, straining our justice system, and disproportionately impacting communities without improving public health or safety. "Legalization, when done responsibly, allows us to regulate the market, ensure product safety, and generate meaningful tax revenue that can be reinvested into our communities, especially for public health, substance use treatment, and education. It also creates economic opportunities for small businesses and workers right here in Pennsylvania. "Just as importantly, legalization gives us the chance to right past wrongs by expunging non-violent cannabis-related records and ensuring that those most impacted by prohibition have a fair opportunity to participate in the legal market. "This is a commonsense, forward-looking policy, and it's long overdue in Pennsylvania."

148	Andrea	Deutsch	Democrat	https://www.andreaforstaterrep.com/	Yes	Offered this comment in response to our candidate survey, "I am fully in favor of legalizing cannabis in PA, and believe that we are foolishly leaving significant tax revenue on the table by our failure to do so. In a candidate forum for those who are running for the open State House seat in District 148, I publicly stated my support of legalizing cannabis and was the only candidate to state my position on the subject at that time. I have attached a recording of the forum for you here. My comments may be found at the 1:44:14 mark. https://www.youtube.com/watch?v=aQyfVX7344 "
148	Megan	Griffin-Shelley	Democrat	https://www.megan4pahouse.com/	Yes	Offered this comment in response to our candidate survey, "Pennsylvania has already established a successful medical cannabis program, and we are well positioned to take the next step by legalizing adult-use cannabis in a responsible and well-regulated way. Governor Josh Shapiro has called for moving in this direction as well, recognizing both the economic and public policy benefits. "With a thoughtful approach to taxation and regulation, legalization can generate significant revenue to reinvest in our communities while creating new opportunities for Pennsylvania businesses. Right now, with neighboring states already allowing adult-use sales, we are watching revenue leave our Commonwealth as residents cross state lines to purchase legally elsewhere. "At the same time, we have to acknowledge the real consequences of past cannabis policies. Too many individuals are still dealing with the impact of nonviolent cannabis convictions, even as legal markets continue to grow. Any legalization effort should include expungement of eligible records and support systems that help individuals successfully re-enter the workforce and their communities. "This is an opportunity for Pennsylvania to move forward in a way that is responsible, balanced, and forward-looking, while also addressing past harms. Federal action remains important as well; passing the MORE Act would provide consistency across states and help ensure a more equitable approach nationwide."

166	Judy	Trombetta	Democrat	https://www.judytrombetta.com/	Yes	Offered this comment in response to our candidate survey, "I support the legalization of recreational marijuana in Pennsylvania in a responsible and well-regulated way. "All of our neighboring states have already moved forward with legalization. As a result, hundreds of millions of dollars in potential tax revenue are leaving our state every year instead of being invested back into Pennsylvania communities to support priorities like education, infrastructure, and public safety. "Legalization would allow us to regulate the market responsibly, ensure product safety, reduce strain on the criminal justice system, and generate meaningful revenue that can be reinvested in our communities. It's time for Pennsylvania to catch up and move forward in a thoughtful, balanced way."
