Will SPONSOR cannabis
legalization legislation

Will VOTE YES on home
cultivation legislation

Candidate Survey Responses

Do you support legislation that would legalize cannabis for adults 21+, and replace the current criminal market for cannabis with a safe, legal, taxed and regulated market?

Yes, I would be willing to sponsor a bill to end prohibition and create a regulated market.

Do you support allowing adults 21+ to cultivate cannabis in the privacy of their home?

Yes, I support this and would vote “Yes” on a bill to allow for home cultivation.

The creation of a regulated cannabis market will divert millions of dollars from gangs and other criminal organizations.

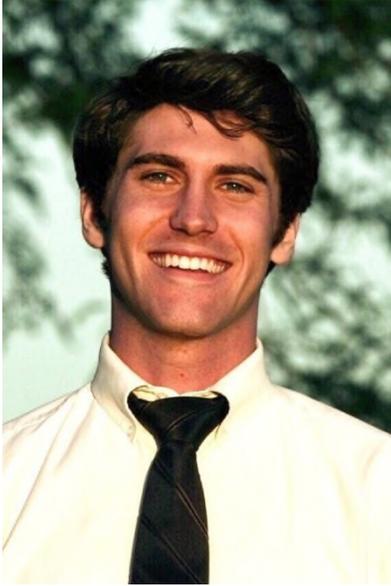

Stongly Agree

Cannabis regulation helps deter access to cannabis by minors, by implementing enforcement mechanisms similar to alcohol, such as ‘We Card’ programs

Strongly Agree

Research shows cannabis is objectively less dangerous than alcohol and tobacco.

The candidate has not responded to our candidate survey.

Candidates were asked if they support cannabis legalization at the 2020 Gubernatorial debate on October 13. The following is Ms. Murray's response.

“I am a little more moderated than that. I understand the tax implications and how it can be a revenue boost, but as governor I would have serious concerns about it. How it plays into the criminal code, how we deal with under the influence, how we deal with workplace safety. So if the General Assembly were to bring it, if the people spoke to their representatives and they were to bring it, I'm not a hard veto but at this point I would be a veto.”
